

AO  
AMRAPUR  
OVERSEAS

Sourcing is our core strength! With over 50 years of sourcing experience, we bring with us a deep understanding of both the Asian manufacturing culture, as well as in-depth understanding of retail – our customers. We have offices around the world giving us a global advantage.

Expanding on our core business of home textiles, Amrapur Overseas is a leader in development of products across several areas. Our main markets are North America, Mexico, Central and South America, and we are also working currently with customers in Europe, South Africa the Middle-East and Asia markets.

We operate in our new state-of-the-art 225,000 square foot facility in Southern California. We have invested in the latest software and space saving racking & sortation systems, allowing us to pick and pack goods while successfully handling large number of SKUs with low overhead.

With expert capability we can drop ship within 24 hours for our retail partners. Our staff is fully equipped with EDI experts, retail projections & planning team and a dedicated sales team for each and every retail partner.

We commit our time, expertise and financial strength to grow and help support our retail relationships.

# COVID-19 Impact

With the current situation, we have included PPE as a part of our business . Given our experience with sourcing, we've successfully sourced and sold many categories of PPE, including Gloves, Masks, Anti-bacterial Wipes, and Medical Gowns.

In addition, most of our products are FDA certified and compliant with US regulatory standards. Furthermore, to obtain better freight costs, we are partnering with factories based in Thailand, Malaysia, and India and other Asian countries.

## Product Diagram

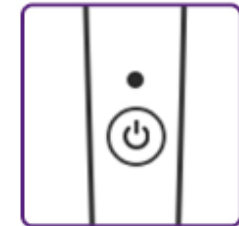

## Product Diagram

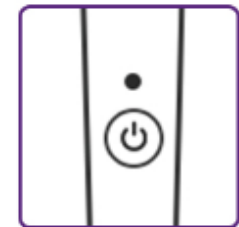

Product Name	UV Portable Sterilizer
Product Model	KJS-02
Working Voltage	USB 5V
Working Current	1A Max
LED	UV3535 6V 2W
Wavelength	270-280nm
Single Size	350×44×22mm
Weight	150g

## Steps for usage

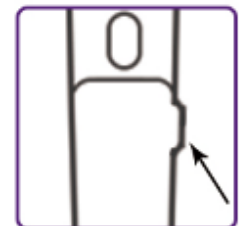

1. Click the power button, the LED indicator light will turn on and the UV lamp will begin to work. Move the Sterilizer slowly, Keep the distance 5cm for 10-20 seconds and repeat it for two or three times with better effect.

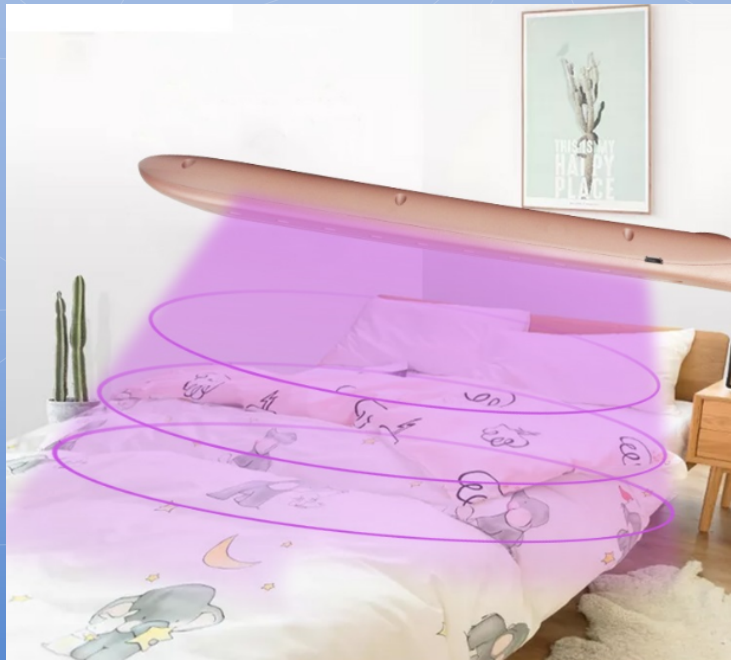

2. Click the power button again, the UV light will be turned off and stops working.

3. Insert the USB cable into the charging port, the red light will start charging, and the light turns to GREEN after full charge.
